Summary

Experienced Frontend Developer with over 5 years in large-scale web projects, specializing in scalable, efficient architecture using React. Proven ability to boost performance and streamline integrations, improving page load speeds and reducing manual tasks. Recognized for delivering innovative, maintainable solutions while collaborating cross-functionally to drive enterprise-level success.

Skills

- **Frontend:** React, React Native, Redux, HTML5, CSS3, Tailwind, Vite, Webpack, Web Frontend Projects
- **Backend & APIs:** Netlify Functions, Supabase (PostgreSQL, Auth, Storage), RESTful API Integration, Webhooks
- **Tools:** GitHub, CI/CD, Jest, Cypress, Zapier, HubSpot, Mulesoft, AI Technologies
- **Concepts:** Technical Integration, Performance Optimization, API Security, System Administration
- **Other:** TCP/IP Networking, XML, Agile/Scrum, Excellent communication & customer service, Computer Science Degree, Collaborative Documentation, Mentoring Engineers

Work History

Institute Of Sustainability Studies Limited

Oct 2023 - Present

Frontend Developer / Technical Integration Manager

- Developed and optimized high-quality frontend modules using React and Tailwind, improving application performance by 40% while ensuring efficient and clean code architecture.
- Collaborated across cross-functional teams to integrate internal systems with third-party platforms (Thinkific, HubSpot, Accredible, Brilliant, Zapier, Zoom) through serverless functions and REST APIs, reducing manual tasks by 60%.
- Implemented CI/CD pipelines that streamlined deployment processes, cutting deployment time from several hours to under 10 minutes.
- Enhanced JavaScript execution and mobile responsiveness by optimizing performance, decreasing execution time by 35%, and reinforcing frontend stability initiatives.
- Partnered with team members to refine the onboarding experience, boosting user satisfaction by 25% and maintaining frontend code quality standards.
- Coordinated backend scalability with Netlify and Supabase, indirectly supporting robust web frontend operations and overall system reliability.

Onlypass Africa

Nov 2022 - Sep 2023

Technical Integration / Frontend Developer

- Designed and implemented scalable, maintainable frontend components with React, Redux, and Vite, aligning with a 'keep it simple' philosophy for clean architecture.
- Developed a secure REST API with Node.js, Express, and MongoDB, achieving a 30% improvement in data throughput and a 25% reduction in latency to support efficient integrations.
- Initiated API security enhancements that reduced vulnerabilities by 40%, reinforcing the safety and robustness of technical solutions.
- Maintained comprehensive API documentation, which improved collaborative development and increased developer efficiency by 20%.
- Bridged technical requirements between product and development teams, ensuring alignment on quality delivery and resolving production integration challenges.

Jarsoft ICT Solutions Limited

Nov 2018 - Sep 2021

Integration Specialist & Frontend Developer

- Integrated CRM and analytics platforms, improving data flow and business intelligence.
- Created reusable UI components and enforced best practices in React development, shortening development cycles.
- Mentored junior developers and supported engineers, leading to improved team delivery.
- Spearheaded cross-functional meetings to ensure smooth API and frontend integrations.

GreyFinch ICT Solutions

Mar 2015 - Oct 2018

Frontend Developer

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, improving cross-device compatibility.
- Collaborated with design, product, and sales teams to build user-centric interfaces that aligned with business goals.
- Refactored legacy UI components to improve performance and maintainability.
- Prioritized and delivered features on time in a fast-paced team environment, contributing to successful project launches.

Education

Griffith College | Master of Science, Computing

Nov 2022

Imo State University | Bachelor of Science, Computer Science

Oct 2012

CERTIFICATION

- Professional Scrum Master I
